

He's not the only doctor to have a dream...

On a steamy August day in 1963, the Rev. Dr. Martin Luther King, Jr. gave one of the most famous speeches of all time. In his speech, he spoke of a dream of all people being equal and treated as such. The members of the New Jersey Dental Association believe that dream pertains to oral healthcare as well.

More than a million people participated in the March on Washington in an effort to make a difference for those who previously had no voice. On Friday, February 1, 2008, you, too, can make a difference for a child who needs dental care and may not have the means to afford it. Bring a child to a participating dental site to help fulfill our dream of every child having a healthy, beautiful and lasting smile.

FRIDAY, FEBRUARY 1, 2008

The *Give Kids A Smile!* (GKAS) program is entering its sixth year. If you have a child age 12 or under in need of dental care and lack dental insurance or the means to acquire it, we welcome you to participate in the program. At more than 75 sites across New Jersey, dental professionals will conduct dental screenings, dental treatment and dental education FREE OF CHARGE to those children in need.

If you are a parent, guardian, school administrator, community or faith-based leader, we encourage you to help us spread the word about this incredible program. More information, including participating locations and parental information, is available at www.njda.org/gkas, or by calling the GKAS Hotline at (888) 576-9278.

...Together, we can turn the dream into reality.

*Parental consent forms must be completed for every child.
Appointments must be made, in advance, at the treating dental facility.*
